

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

Region III
841 Chestnut Building
Philadelphia, Pennsylvania 19107

NOV 23 1994

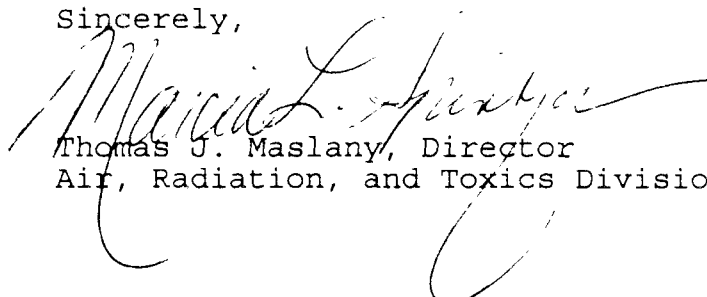

Honorable Arthur A. Davis
Secretary
Department of the Environmental Resources
Commonwealth of Pennsylvania
P.O. Box 2063
Harrisburg, PA 17105-2063

Dear Mr. Davis:

On September 23, 1994, EPA received a revision to the Pennsylvania State Implementation Plan (SIP) from the Pennsylvania Department of Environmental Resources. This SIP revision consists of a program to implement photochemical assessment monitoring stations (PAMS) as required by 40 CFR 58, as amended February 12, 1993. This program is required in all ozone nonattainment areas designated as serious, severe, or extreme or in any reclassified and/or newly designated ozone nonattainment area classified as serious, severe, or extreme. EPA has determined that the submittal is administratively and technically complete, and is reviewing it to prepare a Direct Final Rulemaking Notice (DFRN).

If members of your staff have any questions, they may direct them to Enid A. Gerena, Air Programs Branch, at (215) 597-8239. She is the principal contact for this rulemaking.

Sincerely,

Thomas J. Maslany, Director
Air, Radiation, and Toxics Division
